E-Learning Content Tools

Student Friendly Systems

RDI

RDI help people gain skills and knowledge by providing a wide array of **multimedia** resources for learning, training, education and student e-evaluation. These multimedia resources are used by major corporations, governments, and educational sectors around the world.

A group of consultants in education, highly trained project managers, developers, and graphics designers all these under the supervision of a group of university professors who promote scientific research

Our staff of experienced, highly trained professionals strives to provide exceptional customer service at all times.

Complete systems that comply with the most advanced standards 'SCORM' are offered.

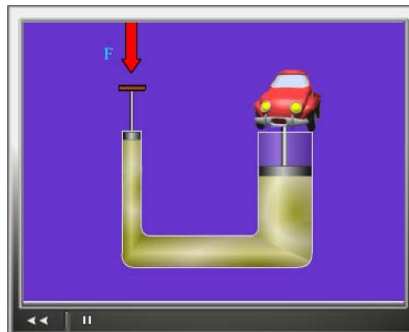

The E-learning Content Tools

A. Animations and Videos

Animations and Videos of dynamic nature help demonstrating lessons in a thrilling way what makes lessons easier to understand and remember through creating a mental image that is unequalled by traditional learning techniques and that is difficult to erase.

Chemistry – Saudi Arabia

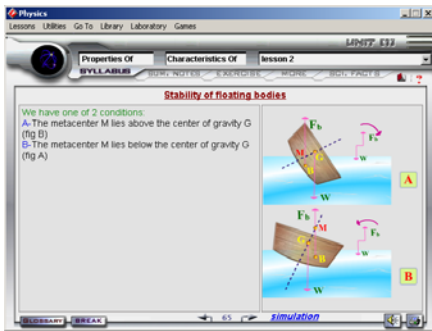

Physics – Egypt

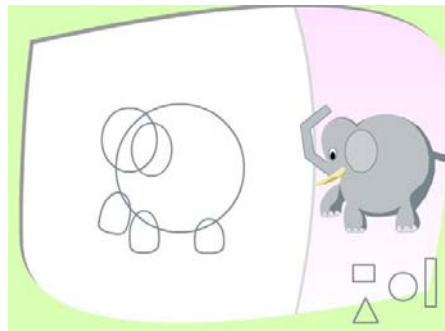

History (Animated Maps – Saudi Arabia)

B. Interactive lessons

Searchable lessons with the options of highlighting important parts, writing notes, bookmarking, printing and also hearing the lesson; all these options give the student the chance to interact with the lessons and so help him to remember and understand more efficiently as he is using more than one sense in studying, specially for kids.

Physics – Egypt

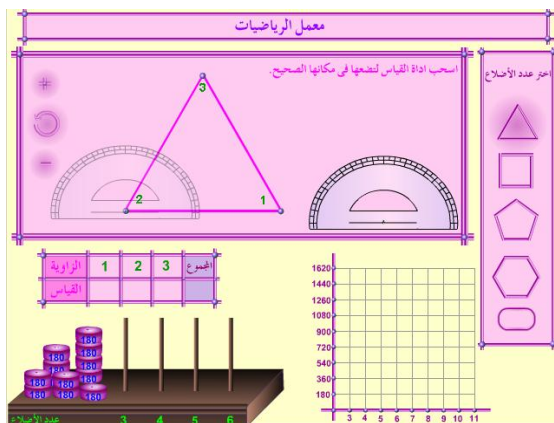

How to draw for kids

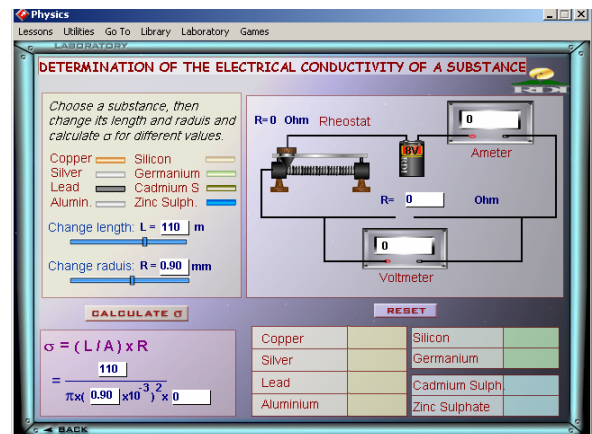

Smart school Arabic – Kuwait

C. Interactive e-labs

Instead of building huge and expensive labs in your schools you can simulate the experiments and let the student feel as if he is in a real lab having the chance to try whatever he think in with less time and effort at no cost!

Math – Egypt

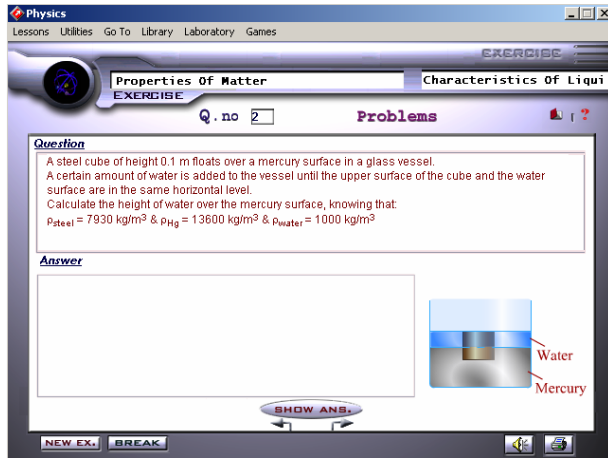

Lab simulation, Physics – Egypt

D. Exams

No more papers and corrections are needed!

Yes your students can have all their exams online or on a CD all kind of questions from Multiple Choice (MCQ) to 'fill in the spaces' and 'connect'...

Score can be easily tracked as they are displayed on the spot. Students' progress can be tracked easily via weekly or monthly reports providing accurate and error free results.

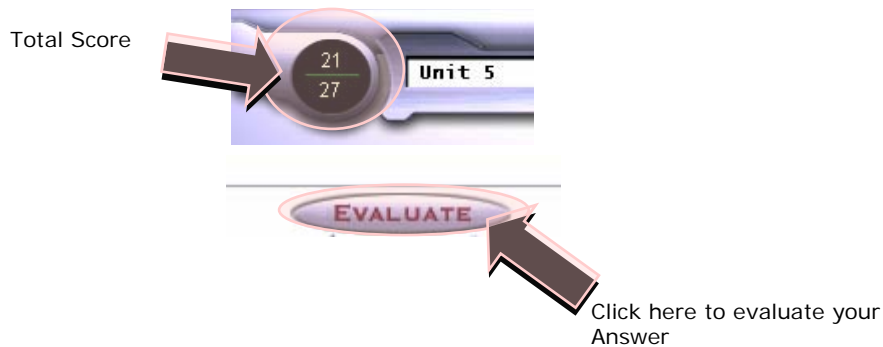

Problems, Physics – Egypt

Smart School, Arabic – Kuwait

E. Evaluation

Automatic evaluation in exams or sheets for behavior, attendance and school activities all this can be easily reported to parents via Internet; and used by teachers to evaluate the student without the headache of correcting large numbers of papers.

F. Education via entertainment (Edutainment)

One of the smartest ways of education is to make students learn while they think they are playing, this makes studying more challenging as we all almost find games challenging.

Memory cards, Physics – Egypt

Painting game, Smart School - Kuwait

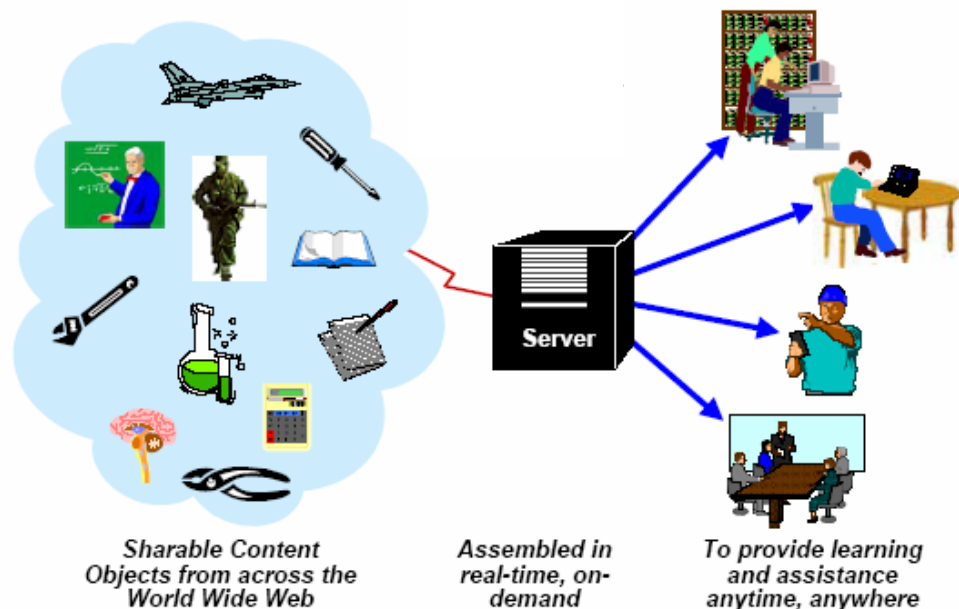

Puzzle, Smart School - Kuwait

G. SCORM (Sharable Content Object Reference Model) **complying**

Being SCORM compliant, makes our systems easily integrated with any of the learning management systems (LMS); as they include the following features:

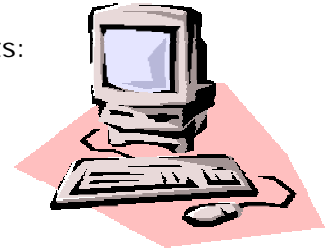

- ✚ Platform independent (can work on any operating system).
- ✚ Tracking all the student activities and interactions with the system (the lessons he/she visited, the exams scores...) each student has his own profile with all his activities tracked and recorded.
- ✚ Live Interaction with the teacher; Video conference.
- ✚ 'Authoring Systems' the facility of letting the teacher composes and/or edits the curriculum.
- ✚ Statistics representing the student progress in scores and rate of studying...
- ✚ 'Sequencing' the system makes sure you know all about any course prerequisites by checking that you have gone through the previous course.

Products and Services Formats

Our multimedia resources are available in any language with the following formats:

-  Videos
-  Interactive CDs
-  Online / Network (SCORM)
-  DVDs

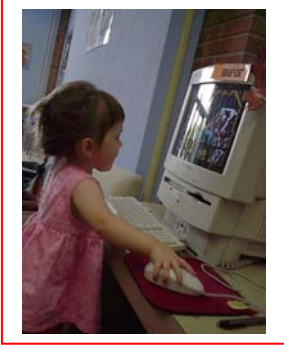

Our E. Learning Clients and Scope of work:

Organization-country	Contract Date	Scholastic Stage	No. of Curriculums
Andalous Schools-KSA	28/7/2001	Preparatory	52 Curriculums
Curriculums of Kuwait for secondary schools only	16/5/2001	secondary	61 Curriculums
		Courses	52 Curriculums
School City - Curriculum of KSA for all stages	5/5/2003	Elementary (4, 5, 6)	46 Curriculums
		Preparatory	44 Curriculums
		Secondary	62 Curriculums
Alrowad-Egypt	19/5/2002	Elementary	One
Elbayain Schools - KSA	8/5/2003	Medium	90 Curriculums
MOE Kuwait – Smart School	1/5/2004	Preparatory	10 Curriculums
Elbayain Schools -	5/2004	Secondary	30 Curriculums
Dar ElFekr Schools	1/2/2004	History and Geography	18 Curriculums
Microsoft	1/6/2004	Preparatory& Secondary	

450 Curriculums in **all** subjects in Saudi Arabia, Kuwait and Egypt

We can provide the content in **any language**, from Kindergarten to post graduates

Call us for interactive **e-learning** systems, **exam** servers and e-labs for your education organization
