

With a slogan of 'The Enlightenment Touch' came out to the light our e-learning solutions business line to provide you turn key solutions that can guarantee better education quality to your organization. RDI has a spectrum of products that perfectly serve the e-learning through a collection of advanced text and speech technologies & high quality 2D/3D animations seeking to optimally match our client's requirements and budget. RDI solutions are used by major corporations, governments, and educational sectors around the world, and has proven records of helping student's to focus, improving their performance, enhance their progress and assisting teachers.

Examples of RDI's Solution Components:

1. E-Content:

RDI help students gain skills and knowledge by providing a wide array of multimedia resources (Animations and Videos, **Virtual Labs**, Exams & Evaluation, **Educational Games...**) for training, education and student e-evaluation. RDI's e-Content can be delivered in a 'SCORM' compliant form.

2. e-Book:

Based on RDI's human language spoken and written **technologies**, RDI innovated an inclusive solution where the book is introduced in a different style that matches the pace of the era. RDI's e-Book compromise the following features:

- 1- User-friendly browsing and navigation through the book content.
- 2- Advanced Arabic search engine.
- 3- Arabic dictionaries that is dynamically bind to the text and the reader can know all the details related to the word meaning, root ... by just simple mouse right click.
- 4- The ability to listen to any chosen part of the book.
- 5- Dynamic control of the font features (size, color...)

3. Self Learning of Tajweed; Hafss:

And last but not least our newly launched product on which thousands of hours were spent in development; Self learning of the recitation rules of the Holy Qur'aan(Tajweed);Hafss©.

Coming Soon:

Arabic self learning application, that will be a revolution in the world of language learning...

Features that distinguish RDI solutions from alternative solutions include:

- RDI deliver cost effective solutions on time and tailored to your standards.
- High quality design, that can be enriched with our 2D/3D Animations.
- The capability of embedding RDI text and speech technologies like search engine or text-to-speech to augment the solutions.
